

PHP_Code_for_Connecting_to_MySQL_Database.php

```
<?php
//----- MySQL Driver -----
$myServer = "localhost";
$myUser = "root";
$myPass = "123456";
$myDB = "MYTEST";
$s = mysql_connect($myServer, $myUser, $myPass) or die("Couldn't
connect to SQL Server on $myServer");
$d = mysql_select_db($myDB, $s) or die("Couldn't open database
$myDB");

//----- Simple SQL Query with PHP -----
$query = "SELECT * FROM USERS ";
$result = mysql_query($query);
while ($row = mysql_fetch_array($result)){
$username = $row["username"];
$password = $row["password"];
echo "$username - $password <br>";
} //while
?>
```
